Çekmeköy, İstanbul, Turkey

PROFESSIONAL SUMMARY

IT Specialist with hands-on experience across system administration, network security, and application/database support. Currently providing L2/L3 technical support for enterprise Media Asset Management (MAM) and broadcast automation systems supporting national broadcasting channels, managing Elasticsearch clusters and high-availability (HA) server configurations. Background includes Active Directory, Fortigate firewall management, VMware ESXi virtualization, and MSSQL/T-SQL troubleshooting. Fortinet NSE1-certified, with a Computer Programming degree from Istanbul Gedik University.

CORE COMPETENCIES

L2/L3 Technical Support · Software & Application Support · Elasticsearch · Kibana · Grafana (Setup & Monitoring) · High Availability (HA) Infrastructure · Log Analysis & Root Cause Investigation · MSSQL & T-SQL · SQL Optimization · Database Connectivity Troubleshooting · System Administration · Storage Management (SystemManager) · Active Directory · IIS · VMware ESXi · Virtualization · Windows Server/Exchange · Linux Command Line & Bash Scripting · SSH · Fortigate Firewall · Network Security · Network Administration · Jira · Media Asset Management (MAM) · Broadcast Automation (SmartPlay, MediaDeck 7000, Provys, VSX, BXF) · KVKK & Law No. 5651 Compliance · Microsoft 365 · ERP Support (Nebim V3) · POS Systems · Incident Resolution · Technical Documentation & Reporting

PROFESSIONAL EXPERIENCE

Software Support Specialist — ISOFT

Jan 2026 – Present

- Provide L2/L3 technical support for enterprise Media Asset Management (MAM) and broadcast automation systems across production and test environments.
- Sustained 24/7 operational stability for national broadcasting channel software by monitoring and maintaining Elasticsearch clusters and high-availability server configurations.
- Resolve application, integration, and infrastructure issues through log analysis and root-cause investigation, using Kibana for indexing and performance analysis alongside Elasticsearch.
- Diagnose and optimize Microsoft SQL Server performance, resolving database connectivity issues through SQL optimization and root-cause troubleshooting.
- Administer Active Directory, IIS, and Windows Server components; manage storage infrastructure through SystemManager and perform day-to-day Linux operations via SSH and Bash scripting.
- Deploy and maintain Grafana dashboards for real-time infrastructure monitoring; track and resolve incoming cases via Jira.
- Provide integration support for broadcast platforms including SmartPlay, MediaDeck 7000, Provys, VSX, and BXF.

IT Specialist — Manuka

Feb 2025 – Dec 2025

- Designed and built the Active Directory domain infrastructure from the ground up, establishing centralized authentication and resource management across the organization.
- Streamlined multi-system user onboarding by managing user integration across Nebim, Active Directory, Microsoft 365, and Exchange Server.
- Strengthened network security and regulatory compliance across 2 head office buildings, 1 warehouse, and 25 retail stores by configuring Fortigate firewalls and upgrading store-level network infrastructure, in full alignment with Law No. 5651 and KVKK requirements.
- Expanded reliable Wi-Fi coverage across store floors by planning and installing access points at the floor level.
- Resolved approximately 700 support tickets over a one-year period (an average of ~58 tickets per month), maintaining uninterrupted end-user productivity for Windows 10/11 and Microsoft 365 users while troubleshooting local and network printers.
- Ensured continuous server and network uptime by monitoring systems and performing installation/maintenance on VMware ESXi.

IT Support Intern — Istanbul Gedik University

Jun 2024 – Jul 2024

- Provided Windows 10 and Microsoft 365 troubleshooting, PaperCut peripheral management, and server room/AV support for lab and meeting operations.

EDUCATION

Istanbul Gedik University — Computer Programming (2022 – 2024)

Sabiha Gökçen Vocational and Technical Anatolian High School — Electrical-Electronics (2015 – 2019)
